AMENDMENTS TO THE CLAIMS

Please cancel Claims 12-16 and 18 as set forth below. Claims 11 and 17 were previously canceled.

LISTING OF CLAIMS

1. (Previously presented) A device for treating an elevated lumen pressure condition in a patient comprising:
 - a sealed membrane forming an inner cavity;
 - a medium disposed in said inner cavity, said inner cavity having a portion sized for placement external to said body lumen and a portion sized for placement internal to said body lumen; said medium being movable between said internal and external portions in response to pressure fluctuations in said body lumen, thereby therapeutically dampening pressure fluctuations in the body lumen;
 - a media port disposed on said membrane for adding and removing said medium.
2. (Previously presented) The device according to claim 1, further comprising a body lumen sealing device disposed between said internal portion and said external portion of said inner cavity.
3. (Original) The device according to claim 1 wherein said medium is a gas.
4. (Original) The device according to claim 1 wherein said medium is a liquid.
5. (Original) The device according to claim 1 wherein said sealed membrane is composed of an elastic, biocompatible material.
6. (Original) The device according to claim 1 wherein said sealed membrane is composed of silicone.
7. (Original) The device according to claim 1 wherein said sealed membrane is composed of urethane.

8. (Original) The device according to claim 1 wherein said device is coated with a biocompatible configuration that encourages cell ingrowth.
 9. (Original) The device according to claim 1 wherein said pressure of said internal portion is 40 mmHg.
 10. (Previously presented) The device for according to claim 1 wherein said device is sized and shaped so as to allow 10 to 55 ml of medium to shift from said internal portion of said inner cavity to said external portion of said inner cavity.
- 11-18. (Canceled)
